

Button-Making Station – Pick It, Press It, Wear It!

Add a fun and creative twist to your birthday celebration with a Button-Making Station — where kids get to choose their favorite design and turn it into a real button to wear or take home!

Instead of designing from scratch, kids will choose from a variety of pre-made designs that match your party theme — whether it's dinosaurs, unicorns, outer space, princesses, superheroes, animals, or anything else!

What's Included:

A collection of themed button designs to choose from
A button machine and friendly helper to press each button on the spot
1-2 custom buttons per guest
