Come learn the fascinating art of making Kokedama Balls! Kokedama Balls are a globe of moss that contains soil and a plant. Kokedama is the practice of taking the root ball of a plant and suspending it in a mud ball, which is then coated with soft green moss. It is a living planter as well as a distinctive display piece. They may be fixed to a piece of driftwood or bark, suspended from a string, or nestled in a clear, attractive container. Hanging many of these as a Kokedama moss garden is called a string garden. Participants will go through the process of mixing and understanding the soil needs, wrapping the soil and placing the plant in the ball. Eco-Printing A Silk Scarf with Plants (19+yrs)

This workshop aims to teach the basic concepts of Eco Printing, a delightful natural dyeing technique. This process uses leaves, flowers, seeds, and bark to print colours and shapes directly on the fabric, creating unique designs. Each participant will create a beautiful silk scarf while learning about dyeing plants, the different fabric types, and the use of mordants or colour fasteners. In addition to the traditional dyeing plants, we will use plants gathered in the streets. By creating a community of older adults who are interested in skill sharing and group encouragement, we hope to build participants' cycling confidence enough that they can ride throughout the city in safety and comfort. This program is aimed for beginners or participants who have not cycled in many years, but all levels of cyclists are welcome! If cost or is a barrier, email streetwise@bikehub.ca for information. Please visit bikehub.ca/seniors-cycling-program for more information. Bikes and helmets will be provided to participants during the program.

Time to Say Good-Bye to Balloons!

Trout Lake is no longer allowing ANY TYPE OF BALLOON at any birthday party package.

WHY?

- Balloons are single use garbage and an environmental hazard.
 - Normal latex balloons take many years to biodegrade, if ever.
 - The fancy foil (Mylar) balloons never biodegrade, just break into smaller pieces.
 - The foil balloons often cause power outages and fires when they contact power lines.

Pride Month Film Screening The Fruit Machine

Su Jun 7 | 12:30 PM-3:30 PM | Free

The Fruit Machine exposes a dark chapter in Canadian history. From the 1950s until 1996, the Canadian government systematically hunted and interrogated 2SLGBTQI+ people in the RCMP, military, and civil service. An estimated 9,000 people were discriminated against, harassed, and often fired - in what is known as the LGBT Purge.

Join us for a screening followed by Q&A with survivors from the LGBT Purge Fund board: military survivors Martine Roy and Diane Pitre (who appear in the film), and RCMP survivor retired S/Sgt Wayne Davis. Members from Out on Patrol will be in attendance and light refreshments will be served.

Viewer discretion advised: This film contains sensitive discussions and personal recollections of sexual abuse which may be triggering for some viewers. Support resources will be available.
